

Bridges Autism Support Classroom provides intensive instruction to students with Autism Spectrum Disorder in grades K-3 who benefit from ABA teaching strategies and evidence-based practices.

Our Mission at Bridges

Students will learn interdependence and cooperation with the critical lifelong goal of tolerating and valuing interacting with others. All students will make progress in the areas of:

- Attending to people and the environment
- Communicating intentionally and effectively
- Tolerating change
- Accepting new experiences
- Organizing information to learn meanings/purposes
- Independence
- Self-Regulation
