

Developmental Disability Services Eligibility Overview

Diagnosis and evaluation information must be completed by professionals qualified to make a diagnosis in accordance with OAR (411-320-0080).

- For those with consistent IQ results of 65 or less, an assessment of adaptive behavior is not needed if current documentation supports eligibility
- For those who have IQ results of 66-75, verification of an intellectual disability requires an assessment of adaptive behavior. Adaptive behavior impairments must be directly related to the intellectual disability and not primarily attributed to other conditions.*
- The condition or impairment must be expected to last indefinitely.

Eligibility for Other Developmental Disabilities:

- The individual must require training or support similar to that required by individuals with intellectual disability. This is measured through adaptive assessments and means that the individual has a composite score at least two standard deviations below the mean (70 or less) on a standardized assessment of adaptive behavior administered by a qualified professional.
- Adaptive behavior impairments must be directly related to the developmental disability and not primarily attributed to other conditions.*
